SOUTHEASTERN OREGON.

DESCRIPTION OF THE REGION BY A PERSON WHO HAS SEEN IT—A VALUABLE COUNTRY FOR SETTLEMENT—RICH LAND, CLEAR LAKES AND FINE STREAMS.

EDITOR OREGONIAN:

Owing to the prospect of connecting Portland with the Grand Trunk Railway at Centreville on the Humboldt, considerable discussion has taken place as to the character of the country in Southeastern Oregon. The accompanying letter from Mr. M. S. Hart, whose statements may be implicitly relied upon, will serve to bring the facts before the community.

I may say in addition, that when Capt. J. M. McCall commanded the expedition into that country, in the summer of 1865, I received several letters from him, all expressing surprise to find so extensive and valuable a country for growing and agricultural purposes. After his return, he said to me that the whole country was well supplied with wood and well watered, that the valleys were numerous, many of them large and very fertile, and covered with a wild red-top and clover. Other persons connected with the expedition have told me the same thing. Col. Drew, in his official report, fully corroborates these statements. Capt. Sprague, some of whose letters were republished in the OREGONIAN a year since, speaks in extravagant terms of the beauty, fertility, importance and future of the country, terming it a "paradise," &c. At the late railroad meeting at Jacksonville, some of the speakers spoke highly of the country in the great Klamath basin, and no one pretended but that it was of great value. The Government surveyors make the same report. The country around Goose Lake is one-third as large as the Willamette valley, and quite as fertile, but probably cannot have as wide a range of productions, owing to its altitude. The simple fact seems to be that in Southeastern Oregon there is a country containing twenty or twenty-five thousand square miles, filled with lakes, (and where is there a lake country in the world that is not valuable?) which are supplied by numberless streams which pass through a diversified and valuable country. That immediately east of Diamond Peak there is a large, barren, waste of country, covered with the debris of volcanic action, is unquestionably correct, but to assert anything of the kind of Southeastern Oregon, is certainly uncandid and untrue. Yours truly,

WM. H. WATKINS.

DR. WM. H. WATKINS—*Dear Sir:* In response to yours inquiring as to character of country east of the Cascade mountains known as the District of the Lakes, I will give you such outline of the country as may be sufficient to correct the present erroneous impression which exists. During nearly two years travel in that country, I have seen the greater portion of it. Klamath Lake and surrounding country are too well known to need a description—except Sprague's river, the principal tributary from the east, which, rising in the Goose Lake mountains, running north-west, and after breaking out of the mountains passes from thirty to fifty miles to the lake, through fine prairie lands of good quality, with an abundance of wood and all the requisites for settlement and cultivation. On the upper Klamath is a very large body of good land, and directly east of this river is Summer Lake, surrounded by a prairie ten or twelve miles long by six or eight miles wide, the whole enclosed by a forest of pine timber. The lake is kept ever full by beautiful streams, flowing in on every side. Northeast, perhaps 20 miles, is Silver Lake, surrounded by good lands, bordered by a large tract of timbered land, which stretches away to the Goose Lake mountains. The lake is fed by two large streams, gathered from the water-shed south of the Deschutes and east of the Klamath. These streams have wide bottoms of meadow land extending far back into the hills. Along the streams are large groves of cottonwood, and the hills are covered with bunch grass. A little to the southeast, through a low gap, is a small lake, as yet unnamed, with neither inlet or outlet, but with good land all around it and the whole surrounded with heavy timber. Still southeast about thirty miles is Abert Lake a beautiful sheet of water lying low among the hills. Stretching back from the water and along the creeks are wide prairies of excellent lands. Vegetation in this extensive valley is of enormous growth. The climate, fertility, and location indicate that this some day will be the garden spot of this whole section. South, about twenty miles, is Goose Lake, the largest of this circle of lakes, and perhaps for location and surroundings, the most valuable of any. At the north end of this lake is a large stretch of open rolling country extending back twenty-five or thirty miles to the heavily timbered hills. Numerous streams pouring down from the mountains wind their way through this beautiful valley to the lake.

In time there will be located here a large and wealthy community. Here at the north end of Goose Lake, we strike the old wagon road from Klamath to Surprise Valley, Cal., made by Col. Drew in 1865.

On either side of the lake is a fine growth of pine timber; the only place in Oregon except Jackson and Josephine counties where the lofty and valuable sugar pine abounds. Near the south end of the lake the whole country opens out into wide fertile valleys and gently rolling hills, extending far down on to the waters of Pitt river and into the State of Nevada. This country gives evidence of being rich in minerals and as a grazing country cannot be surpassed. East of Goose Lake is Christmas or Warner Lake. This is one of a number of small lakes linked together by narrow channels of water, and extends from northeast to southwest nearly seventy miles. And throughout this large scope of country on either side, along the numerous streams, may be found wide bottoms of valuable lands, while on the hills between these streams there is an abundance of timber.

It is in the border of one of these timbered hills that Camp Warner is situated. In the section of country surrounded by this circle of lakes I have noticed the most important localities—many I have left unnoticed. Throughout this large country there is very little, if any, lands that are absolutely valueless, and no impression could be more erroneous than that this section abounds in nothing but lizards and horned toads, or that it is not capable of sustaining a population "numerous enough to defend themselves from the attacks of wild beasts." At no distant day these valleys will be filled with an adventurous and enterprising population. Communities, towns and cities will grow up, and the people of the Willamette will be blind to their own interest if they make no effort to ally themselves to them, by ties of railroad, amity and commerce.

Yours truly, M. S. HART.

Congressional Aid to Railroads.

EDITOR OREGONIAN:

The question whether Congress will grant aid to corporations or to States for the purpose of building railroads connecting with the Pacific coast is that which especially interests us at the present time. Government aid may be afforded in various kinds: first, by direct appropriation; second, by government bonds; third, by guaranteeing interest upon bonds of the corporation; and fourth, by grants of land, timber, &c.

There are some five or six proposed roads that we of Oregon are more or less interested in, viz: first, the Portland and Humboldt Branch Road; second, the Oregon and California Central; third, the North Pacific; fourth, the Salt Lake and Columbia Branch; fifth, the Columbia River and Puget Sound Road. Without stopping to inquire which of these would benefit the "greatest number to the greatest extent?" let us look to the prospect for government aid to any or all of them. The Thirty-Eighth Congress granted public lands to the extent of twenty miles in alternate sections on each side of the road, to the North Pacific Railroad Company, to aid in the construction of a road from the west end of Lake Superior, by way of St. Paul, Ft. Benton, &c., to Puget Sound. That company applied to the thirty-ninth Congress for further assistance, in the form of a guarantee of interest at the rate of six per cent., by the Government, on the company's bonds, to the extent of some $36,000 per mile. In order to indemnify the General Government for any interest it might have to pay on their bonds, the company proposed in their bill, first, to set apart the proceeds of the sales of all their lands, on the south side of the line of the road; second, to transport Government stores, troops, mails, &c., at the same rates private parties are charged, and the amount to be credited to the company; third, one-fourth of the gross receipts, from the time the road is used, set apart to the benefit of the Government, until its funds are fully reimbursed, the Government to be liable for interest only on each successive twenty miles as finished.

It was almost a perfect certainty that the Government would never be called on to pay any interest, and yet after immense labor by its friends, the bill was voted down. The grounds taken by the opponents of the bill, were that the Government should keep clear of such speculations; if it began there would be no end to them. When reminded of what it had done for the Union and Central Pacific Companies, their answer was, "the Government has need of *one* Pacific railroad and no more." "If individuals want more made let them build them."

The friends of the Salt Lake and Columbia Branch road asked for nothing but a grant of land ten miles, in alternate sections, on each side of the road. The Committee on Pacific Railroads reported favorably on this bill, but its opponents would have it referred to the Committee on Public Lands, and after a protracted investigation the Committee promised a favorable report, but Congress adjourned before it was made.

Lands were granted to the Oregon and California Central, and to some others on the east side of the continent, but *no money*, in any form, to any road. The present Congress being in a great measure constituted of the same persons as the last, there is little grounds on which to predicate a hope of moneyed assistance to any road on this coast; especially when we remember that there are perhaps fifty branch road propositions, on the eastern end of the Pacific road calling for aid from the Government. The probability is that each of the branch roads, and also the Columbia River and Puget Sound road may obtain grants of land to aid in their construction.

Again, should the friends, in Congress, of the various railroad projects, viz: the North Pacific, the South Pacific, and the branch roads, unite and agree to sustain each other, they may be able to compel Uncle Sam to stand at the back of them all, while no one individual of them [illegible]bly succeed.

The feasibility, utility, and propriety of the Portland and Humboldt branch are so palpable that the presumption is that the Central Pacific Company will take it up and build it [illegible], as a feeder to their road, and thereby add to themselves the trade and travel of all Western Oregon and the lower Columbia, which would otherwise naturally flow to the North P[illegible]. And let no man deceive himself in [illegible] of to that North Pacific road, *for it will be built*, and that speedily.

As to the Columbia River and Salt Lake branch, it was not contemplated, or even desired, by its most active friends that there should be but a [illegible]tion of it built [illegible] to connect the [illegible] of the "Oregon Steam Navigation Company" with the Central Road. One hundred and ten miles from the north end of Salt Lake brings the road to Salmon Falls, on Snake River. Here it meets one of that Company's boats, which runs as low as Olds' Ferry. From that point the road would have to be built to Wallula, a [illegible] of one hundred and sixty miles, to connect again with the boats; this two hundred and eighty [illegible] of railroad would make connection with the Central Road, at Salt Lake, and the Pacific Ocean, at the mouth of the Columbia, by rail and [illegible]. After these connecting links are built, who imagines the balance of it would be built on that route during the present century? As a matter of course, all foreign trade and travel on this line would be received or discharged at Astoria, and not at Portland, as there would be no reason why they should cross, and re-cross, the bar at the mouth of the Willamette River. Consequently, the only hope for the permanent prosperity of Portland, *is the Branch Road from that place to the Humboldt Valley*. But should the people of Portland see fit to sacrifice themselves, be it so.

AGRICULTURIST.

Willamette Valley, January, 1868.

The Union Pacific Railroad—What it is and what it will be.

Our readers have heard of it lately, and they will hear more of it at brief intervals. Five hundred miles of track have been laid from the East, and an artery of the iron way has been cut through the stony heart of the Sierra Nevada on the West. For two or three years more along a line stretching across the Rocky Mountains and through the Humboldt Valleys, there will be the bustle and rush of a great army, with its long trains and busy camps, and there will be a smell of burning powder, and [illegible] these like a great battle. But this army is not to destroy but to create. Its trains are not loaded with bristling weapons, but with picks and shovels, and its artillery sweeps away nothing but the [illegible] that have stood for long ages in the way of advancing civilization. In two or three years, the builders of the West coming East, and the builders of the East going West, will meet somewhere about Salt Lake, and then we shall have the grandest civic celebration of modern times.

The two great divisions of a continent will be united amidst national rejoicings, and all the great officers and a host of the great people will be present to witness the august ceremony. We can now imagine that we see the President of the United States driving the last spike to the rail which is to bind the Atlantic and Pacific States together in a national unity and prosperity such as we have never known before. Thousands who have been waiting some better means of [reach]ing California than a crowded steamer and near a month's passage offered, will seek homes among the gold mines and gardens by this new and speedy transit. Vine-growers from Germany will swarm upon her hills, than which none are more productive of wines; and far up the vast regions through Oregon, and Washington Territory, to our new Russian Possessions, the tide of an increasing population will ebb and flow over this Pacific Railroad.

The idea of the work was a grand one. It had become indispensable to the development and safety of the nation, and nothing less than the nation's power could execute it. We are practically, to-day, almost twice as far from San Francisco as from St. Petersburg, and in case of war, one side of our country would be almost severed from the other. The nation needed this Pacific Railroad to develop its vast territories, which are so rich in lands, mines, and [illegible], and to overcome barbarism with the institutions of religion, science and art.

These, as well as other reasons, induced Congress to grant the most substantial aid to the two great companies that are now constructing the Pacific Railroad and telegraph line, and that have already spent over forty million dollars upon it. The land grant of 12,800 acres to the mile is certainly munificent, but it increases the value of every other acre in the vicinity tenfold. The grant of fifty million dollars in Government bonds on which the United States Treasury pays the interest, and for which it takes a second lien upon the road as security, is large, but the Union Pacific Railroad carries troops, freights and mails for the Government to an amount which pays this interest several times over. No other public work ever gave such promise of future usefulness or profit.

The Union Pacific, unlike other railroad companies, is a thoroughly *national* company. It derives its charter directly from Congress, and five Government Directors and three Government Commissioners assist in the control and inspection of its affairs. It will be the great *central railroad* of the country, and, of course, will be the artery of an immense commerce. And this answers the natural inquiry "Will the road pay?" We don't see how it can help it. The traffic that is waiting for it and that will be developed by it is beyond contingency, and as there will be no rival line, it is very likely that the company will not forget to charge remunerative prices. The way, or local business on but 325 miles, yielded over a million dollars in a single quarter of the present year, and shows that every section is a productive property in itself as soon as completed.

Under such circumstances, the Union Pacific Company has every reason to anticipate the most brilliant [illegible], and we do not [illegible] that it is inspired to make the [illegible] completion of the line at the [illegible] ment. Its stockholders have al[ready] [illegible] five millions of dollars in [illegible] already done, and are able to [illegible] for construction. But if a [illegible] ready shown so much [illegible] ing their work (which no one [illegible] would not [illegible]. The Gov[ernment] [illegible] second lien upon the road [illegible] come in and complete it to pr[illegible] and the security of the First [illegible] ers would remain [illegible] Cisco, for many years [illegible] United States in New York, is one [illegible] and also the Treasurer of this Com[pany] [illegible] well known to be a gentleman of [illegible] tive opinions and [illegible] matters, and we [illegible] that he [illegible] bonds as [illegible] the [illegible]

[illegible] of the Union State Central Committee

J N DOLPH Chairman

NOTICE.

[illegible] meeting of the Union State Central [illegible] be held at Portland on the 18th February, [illegible] are [illegible] fully requested to be present.

J N DOLPH,

[illegible] Union State Central Committee

[illegible] 17th, 1868

About Former Elections

[illegible] the editor who but recently came [illegible], and therefore knows but little of [illegible], probably not much more than [illegible] the [illegible] political history of the [illegible] voted to show that his party [illegible] gains in Oregon since 1862, on the basis of figures which do not [illegible] voting population of the State [illegible] he thinks he has fully demonstrated [illegible] will continue to "gain" proportion[illegible] carry the State in the coming [illegible] he pretends to be of the opinion [illegible]" will obtain the largest ma[illegible] by any party in Oregon! Fig[illegible] to support this ridiculous as[illegible] the whole argument is founded on a [illegible] of the gains of the party since 1862, will not bear close scrutiny The [illegible] Governor in 1862 was 7,039, the [illegible] was 3,450. In 1866 the Union vote [illegible] and the Democratic vote 9,936 [illegible], show a clear Demo[illegible] than 3,000 votes in four years [illegible] ably true that the Democratic [illegible] 1862; but a little atten[illegible] of our elections through a [illegible] will show that it has not increased [illegible] than the Union vote, notwithstand[illegible] of rebel Democrats in 1864 [illegible] be examined to prove the [illegible] In the Presiden[illegible] 1860, the total vote of the State [illegible] had a small plurality; but [illegible] vote of the other candi[illegible] majority against him of [illegible] In 1862, Gov. Gibbs was [illegible] vote of 7,039, or several hundred less [illegible] of votes cast two years be[illegible] it was apparent that the [illegible] in 1862 did not obtain a clear [illegible] the votes in the State, they were, [illegible] by majorities of about 3,000 [illegible] thrown. The canvass was [illegible] by the Union party, but [illegible] The whole Union [illegible] at that time was out, but at least [illegible] did not appear at the [illegible] with the Democrats [illegible] had gone to the devil," [illegible] and would never be [illegible] had no further use for the [illegible] and that while things remained [illegible] would have nothing to do with [illegible] Democratic vote been [illegible] less than 7,000, and [illegible] that number, mak[illegible] the two parties [illegible] show this in the most [illegible] In the State election of 1864 [illegible] to [illegible] out in force to [illegible] 2,500 votes more [illegible] two years before. The [illegible] gain of 1,700 in 1864 as [illegible] But in the Presidential [illegible] the Democrats [illegible] from [illegible] to strike a blow [illegible] of the war. [illegible] they got out their whole [illegible] first time since the com[illegible] the rebellion. The aggregate [illegible], of which Lincoln re[illegible] McClellan 8,457. Thus it ap[illegible] actual Union gain from June, 1862 [illegible] 1864, was 2,649; while the actual [illegible] Democratic strength could not [illegible] 1,000 in the same period [illegible] vote in 1860 was nearly 15,000, and as [illegible] in 1862 were elected by con[illegible] half that number, it follows [illegible] Democratic strength in 1862, had [illegible] the polls, must have been fully [illegible] of the Union party at that [illegible], so that the Democrat[illegible] voting strength from 1862 to 1864 was [illegible] that of the Union party Lin[illegible] majority in 1864 was 1,431, and the time [illegible] the organization of the Union [illegible], when its majority, on a full vote, [illegible] been greater. The figures which are [illegible] Democratic politicians to show their [illegible] in the State from June, 1862, to Novem[illegible] and therefore "figures that lie" the [illegible] that their party friends came [illegible] in 1864, and did not come out in 1862 [illegible] the gain of the Union vote was more [illegible] the Democratic during this period it [illegible] that the latter was the more rapid [illegible] 1864 to 1866. This is wholly accounted [illegible] by the accessions to the Democratic par[illegible] the immigration of Confederate [illegible] guerrillas and expelled [illegible] and secessionists, from the [illegible] of the war upon the Missouri border [illegible] in the Union strength from 1864 to 1866 [illegible] 500 votes, the Democratic gain was [illegible] 1,500. Five-sixths of these latter votes [illegible] the expatriated rebels, without that im[illegible], the vote in 1866 would have stood rela[illegible] just about as in the Presidential election of [illegible] But this source of supply for Democratic [illegible] has wholly [illegible] and not only this, but [illegible] numbers of the rebel voters who came [illegible] in 1864 and 1865, have since returned to the [illegible] of their former exploits against the "Abo[illegible]" Since the last election the increase in the voting population of the State has certainly [illegible] to the disadvantage of the Union party In the Presidential election next November probably 22,000 votes will be thrown,—the aggregate is quite as likely to fall below as to exceed that number With early organization and active effort, the Union party can obtain a handsome majority. The prospect is absolutely better than before the State election in 1866 Democratic politicians may boast that their party is gaining from the Republican ranks, and individual examples may be mentioned to prove the assertion, but it is a notorious fact that the whole batch of soreheads, big and little who have abandoned the Union party since 1862, are disappointed office seekers who are hungering for spoils Had the Union party made Ben Hayden Governor in 1862, he would now be what his Democratic brethren call a "howling Radical," had Humason been sent to Congress in 1864 he would still be hurling invective at Democrats and rebels had Newell, now of the Walla Walla *Statesman* been made State Printer or Presidential elector in 1864 he would still be among the foremost of those whom he now denounces as "Radicals" had even poor little Jasper Johnson, of the Lafayette *Courier* been kept in official position he would never have gone over to the Democrats The trouble was there was not room in the Circumlocution Office for all the Barnacles The Union party had not places enough to purchase the continued support and fidelity of this class of men Except the disappointed office seekers, there have been no changes from the Union to the Democratic party worth mentioning, and the result of the coming election will be a decisive blow to all hopes which are based upon such a delusive notion

The California Legislature on the 7th inst, adjourned over the 8th, the anniversary of the battle of New Orleans The Marysville *Appeal* says that when the resolution of adjournment was offered in the Assembly Dwinelle (Union) stated that he was pleased to honor "Old Hickory's memory from the fact that he uttered the significant sentiment, "the Union must and shall be preserved" This was a dead shot into the "left wing" of the Confederate corps Mr Westmoreland (Union) next made a raid upon the peace Democracy" He spoke in euphemistic style of Gen Jackson's defiance of the civil authorities—his tearing the ermine from Judge Hall's shoulders—his defiance of the writ of habeas corpus, and his disgraceful imprisonment of an editor who was man enough to uphold and defend civil rights We wonder if the Democrats who heard these remarks, and voted for the resolution, appreciated the force and relevancy of Mr Westmoreland's remarks?

A Romancing Egotist —Beriah's California acquaintance are coming after him Some time ago, in one of his egotistical discourses, Beriah said that, from the days of his apprenticeship he never held a subordinate position upon any newspaper; never wrote an article for a newspaper at the dictation of any other man, never received a gratuity or bonus for the advocacy of any cause and never, until deprived of his means by a succession of felonies instigated by Radical leaders and committed by Radical mobs, edited a paper which he did not own and control The Marysville *Appeal* copies this, and remarks that "Brown was editor of the Stockton *Republican* for a time when published at Stockton and Sacramento He did not own that establishment" We only mention this as another proof of Beriah's proneness to falsehoods, even when there is no occasion for telling them.

As the territory of Alaska is under military rule, the Copperhead papers may find in the fact an excellent opportunity to inveigh against the "military oppression," and the "despotism of bayonets," which exists there Will they think of it? Are American citizens who go to that region to be subjected to this "galling bondage"? Military rule there is as rigorous as in the rebel States Where are we driftin'?

The San Francisco *Dispatch* says that there are twenty-one hundred able bodied men seeking eighty appointments on the police force in that city This fact is mentioned as an invincible argument against immigration aid Unquestionably this army of place-seekers have all been promised office by the Democratic politicians who have used them

The *Herald* again undertakes to justify the Southern rebels by comparing them with our ancestors of the Revolution It heads its article, "A Weak Defense," a highly suitable caption Any attempt to defend the Southern rebellion on the principles of the Revolution must necessarily be "a weak defense," and it is gratifying to observe that the partisans of the late Southern Confederacy are aware of it

The *Unionist* says that the oratorical young gentlemen who may be ambitious to address the Grant Club at Albany will have need for their best sayings, as seventy, eighty, or a hundred young ladies are in attendance at the meetings

A majority of the members of the California Legislature are from the late slave States This fact may [illegible] to give a partial explanation of the political status of that body.

The Union Committee of Polk county will meet at Dallas on the 8th of February to take measures for the campaign

Maximilian's Property —Maximilian's estate in Europe is giving trouble to his executors His chateaus of Miramar and Lacrome are estimated at about $1,500,000, but instead of yielding any profit they cost $20,000 to keep them up, besides being mortgaged for $400,000 There is some difficulty about his debt at Trieste, which amounts to more than $1,000,000 The Belgian executors, in the interest of their sisters, wish these debts to be paid by Austria, on the ground that they were contracted in the public service This is contested by the Austrian family The unfortunate Princess Carlotta, it is said, would willingly pay her husband's debts from her private purse, if she was in a state to authorize such a measure, but her insanity prevents it

The Connecticut Legislature has passed a law making it a criminal offence to defraud hotel or boarding house keepers out of their bills

First National Bank of Idaho—Boise City, I T — Organized March 11th 1867, (with circulation) under Act of Congress, approved June 3d, 1864 Authorized capital $500 000 Paid up capital $100,000 B M DuRell President. C W Moore, Cashier Collections of Notes and Accounts on the principal places of Idaho Territory promptly attended to Exchange for Coin or Currency on this Bank can be purchased of Ladd & Tilton Portland Oregon

What Doctors, Ministers and Professors think of them — "I recommend their use to public speakers —*Rev. E H Chapin* "I have never changed my mind respecting *Brown's Bronchial Troches* from the first excepting to think better of that which I began thinking well of"—*Rev Henry Ward Beecher* "Great service in subduing hoarseness —*Rev Daniel Wise New York* The Troches are a staff of life to me —*Prof Edward North, President of Hamilton College Clinton N Y* "A simple and elegant combination for Coughs etc. —*Dr G F Bigelow Boston*

GOING! GOING! GONE!—Such were the words that the graceful and admiring skaters uttered as they saw the ice gradually spoil and made unfit for their sport While the ice is going KOHN & FISHEL still remain, and are already preparing to receive a large invoice of Fine and Fashionable Clothing for the Spring trade, and shall hereafter, as heretofore be the leaders of fashion, have the best goods, and sell them at the lowest price

Buchtel's Photograph Gallery is the only establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art Photographs from card to life size *The new cabinet cards &c, &c* Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. E J Ramsey Pictures that are fading can be reproduced in this way All negatives taken in this gallery will be carefully preserved and additional copies had I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room

NEW TO-DAY.

525 MILES

OF THE

UNION PACIFIC RAILROAD

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

THIS BRINGS THE LINE TO THE EASTERN BASE of the Rocky Mountains and it is expected that the track will be laid thirty miles farther to Evans Pass the highest point on the road by January The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile while that of many eastern roads is over one hundred Work in the rock cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870

The means provided for the construction of this Great National Work are ample The United States grants its Six Per Cent Bonds at the rate of from $16 000 to $48 000 per mile for which it takes a *second lien* as security and receives payment to a large if not to the full extent of its claim in services These bonds are issued as each twenty mile section is finished and after it has been examined by the United States Commissioners and pronounced to be in all respects a first class road thoroughly supplied with depots repair shops stations and all the necessary rolling stock and other equipments

The United States also makes a donation of 12,800 acres of land to the mile which will be a source of large revenue to the Company Much of this land in the Platte Valley is among the most fertile in the world and other large portions are covered with heavy pine forests and abound in coal of the best quality

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more Hon E D Morgan and Hon Oakes Ames are Trustees for the Bondholders and deliver the bonds to the Company only as the work progresses so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars of which over five millions have been paid in upon the work already done

EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue if not another mile were built It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent and as there will be no competition it can always be done at profitable rates

It will be noticed that the Union Pacific Railroad is in fact a *Government Work*, built under the supervision of Government officers and to a large extent with Government money, and that its bonds are issued under Government direction It is believed that no similar security is so carefully guarded and certainly no other is based upon a larger or more valuable property As the Company's

FIRST MORTGAGE BONDS

are offered for the present at **90 CENTS ON THE DOLLAR,** they are the cheapest security in the market being more than 15 per cent lower than U S Stocks They pay

SIX PER CENT. IN GOLD,

or over **NINE PER CENT.** upon the investment Subscriptions will be received in Portland by

FIRST NATIONAL BANK,

and in New York at the Company's Office, No 20 Nassau street, and by

CONTINENTAL NATIONAL BANK, No 7 Nassau st,
CLARK DODGE & CO, Bankers No 51 Wall st
JOHN J CISCO & SON Bankers, No 33 Wall st,

and by the Company's advertised Agents throughout the United States Remittances should be made in drafts or other funds par in New York and the bonds will be sent free of charge by return express

A NEW PAMPHLET AND MAP showing the Progress of the Work, Resources for Construction, and Value of Bonds may be obtained at the Company's Offices or of its advertised Agents or will be sent free on application

JOHN J. CISCO, Treasurer New York.

A DOUBLE HEADER.—Mr Laughlin of Yamhill, who called into our office last evening says that he saw yesterday at Mr Ellison's place, the head of a calf which was double. The calf being dead Mr Ellison had cut off the head for the purpose of preserving it. It had, not exactly two foreheads, but a double one with two ears and four eyes, two of the latter being in the usual places on the side of the face and of perfect formation. The other two were in a sort of double socket resting in contact though distinct from each other. Below the eyes the face was divided into two distinct and well formed noses and perfect mouths. The tongue was one at the root but divided near the middle, forming a tongue tip for each mouth. The windpipe and esophagus were single. The animal was stillborn, so there can be only speculation as to what sort of a stagger it might have made, if alive, at making a living with its double geared machinery.

AMENDED RAILROAD ORDINANCE.—The Railroad Ordinance, as amended by the Committee to which it was referred, will be found in another column. The first amendment is in the title of the ordinance and also in [illegible] one striking out all that portion relating to Front [illegible], and confining the service to be rendered by the [illegible] to the transportation of material for city buildings and improvements. The next amendment is in section two, providing for the Trustee and his duties and [illegible] the grading of the road by other home means before the city parts with its security. This secures the city [illegible] against the loss of the means advanced. The next amendment, in section four, provides for the [illegible] of the rate of taxation from year to year as [illegible] the taxable property increases. Section six provides [illegible] specifically in relation to the execution of the contract.

AN EFFORT TO OPEN THE COLUMBIA.—Purser McDonald [illegible] and Engineer Marshall arrived over [illegible] the new Okanagan last Saturday for the [illegible] of laying in a few [illegible] stores, in which they [illegible] short while encamped in the ice [illegible]. Having procured the articles they wanted, they will start this [illegible] back to the steamer with instructions to attempt [illegible] a channel down the Columbia to the open waters [illegible]. If successful in this, the steamer will at once [illegible] and take a load of the freight left there by the Oriflamme and Alma. It is thought that by the time the can return from such a trip, the river will be [illegible] to Portland, or so nearly open that the steamer can [illegible] the ice.

GOOD TEMPLARS.—The following are the officers elect [illegible] Lodge No 12, I O G T for term commencing [illegible] 1st, 1868: W C T, W W Skinner; [illegible], Mrs C [illegible]; W S, James B Baker; [illegible] W T, Mrs L L Williams; [illegible] W I G, Miss Della Brannan, W [illegible], P W C T, J N Dolph [illegible] Officers elect of Crystal Lodge No 19, I O G T [illegible] term commencing Feb [illegible] 1st, 1868 and W C [illegible] W V T, Francis Halsey [illegible] W T [illegible] Walter D [illegible] W [illegible] Wm Henry [illegible]; W O G, Mr Morris [illegible].

[illegible] The old saying, "It's an ill [illegible] blows nobody good," has received a fresh verification [illegible] the present cold snap. It is safe to say [illegible] of nine tenths of the people of this city [illegible] been [illegible] injured or stopped entirely by the [illegible] yet Mr C. H. Myers, the pianist and [illegible] had a better run of [illegible] and [illegible] kept so many men at work [illegible] pipes has made things lively with Myers, [illegible] the interest [illegible] of his [illegible] with Myers and his wallet, it would [illegible] nature not to sympathize with the ills of [illegible].

[illegible]—We have met several farmers within [illegible] that the freezing weather [illegible] to wheat. In all places where [illegible] was not covered with snow, the roots [illegible] drawn out of the [illegible] by the [illegible] and seem to be dead. The fall of snow [illegible] of the cold spell, was extremely fortunate [illegible] as [illegible] the ground was [illegible] dry, the crop has suffered [illegible] little. A gentleman from Forest Grove [illegible] in low, wet places were heaved up so [illegible] frequently sink to their [illegible] in a [illegible] of ice.

[illegible]—A private letter [illegible] Jan 21, states that [illegible] was started the day before on rock from the [illegible] ledge. The Knott ledge has [illegible] and found to be extremely [illegible] less than $500 per ton. The inauguration [illegible] in the Island mill attracted a great crowd [illegible]. If the [illegible] received [illegible] to be [illegible] upon, the prospects for [illegible] flattering.

[illegible]—Bro. Ireland of the [illegible] to a new baby or a new club of [illegible] the most desirable [illegible] his wife [illegible] from a brief note of yesterday [illegible] that he has not only got a new brass [illegible] into it. He concludes: "Had a gay [illegible] last night; [illegible] till 12 midnight; [illegible] a complete [illegible]," all well [illegible].

[illegible]—Hon. J. H. Mitchell has been [illegible] or more engaged in the delivery of lectures on [illegible] the medical department of [illegible] University. He lectures once or twice each [illegible] of the [illegible] to last two weeks. In addition to the labor of this, he has engaged as [illegible] the Unionist, to deliver a lecture this evening. [illegible] subject of Independence.

[illegible]—The [illegible] we publish this morning [illegible] as fresh as they might have been under more favorable [illegible] having reached Seattle, Washington [illegible] the [illegible] at 6 o'clock [illegible] and thence by [illegible] to this paper [illegible] to be in the most direct [illegible] between San Francisco and Portland.

[illegible]—The [illegible] of Salem [illegible] will lecture before [illegible] at the Court House this [illegible] The Devil [illegible] hoofs and all." [illegible] into the [illegible] of an unbe[illegible] than that the [illegible] should [illegible] the ice and hook of [illegible].

[illegible] The O. S. N. Co.'s [illegible] Wilson G. [illegible] returned to their dock, yesterday, [illegible] place of refuge below Swan Island. Capt [illegible] open as far down as St. Johns [illegible] like to see these steamers again [illegible] though there is nothing yet for them [illegible].

[illegible]—We [illegible] that the [illegible] Fort Vancouver and this city have deposited [illegible] funds in the First National Bank of Portland [illegible] an order from Brig Gen Leonard, Deputy [illegible] of the Pacific Pay District. The Pay [illegible] will make payments by checks.

[illegible]—The [illegible] which fell from the [illegible] Friday night has become about played out. [illegible] little [illegible] in it any way, as only a few could [illegible] want at five dollars an hour. [illegible] could get along very well with skating [illegible].

[illegible]—The Unionist of Monday says "Last night [illegible] from Vancouver, arrived by [illegible] the South, with a couple of men who, we understand [illegible] The poor fellows looked [illegible] but appeared to be kindly treated."

[illegible]—Arrived yesterday per steamer Alert from [illegible] City, 2,731 qr sks flour, 296 bags wheat, 296 [illegible], 70 sks dried fruit, 22 beef hides, 56 [illegible], and 54 boxes eggs, 7 bales merchandise, 15 [illegible] hogs, 1 coop chickens.

LOW WATER.—The long continued freezing weather [illegible] to have partially dried up the sources of the [illegible] and the water is becoming almost as low as in [illegible] time. The Tualatin is said to be about as low as it ever gets.

[illegible] OF DEEDS.—Commissions have been issued by the Governor, appointing Theodore Papen, of [illegible], Missouri, and James R Lowe, of San Jose, California, Commissioners of Deeds for the State of Oregon.

MAILS FOR WASHINGTON TERRITORY.—Mr Brooks, Post-[illegible] us that the mails for Monticello and [illegible] Sound will be dispatched this morning, by a special [illegible]. The bags will be closed at 8 o'clock A M.

THE FERRY ALL RIGHT.—The efforts of the Messrs [illegible] to force a landing through the shore ice at East Portland, were yesterday successful, and everything is [illegible] lovely with ferry transportation.

THE SPRAGUE.—This steamer arrived from Milwaukie [illegible] day for [illegible] without any freight however. She will be again placed in regular daily service next Monday between this city and Oregon City.

UNION PACIFIC RAILROAD.—Attention is directed to the [illegible] first of this great national work in this paper, and to the [illegible] inducements it offers for a safe and profitable [illegible] of money. Opportunity is offered for investing [illegible] securities at the First National Bank of this city. A great deal of valuable information about the Union Pacific Railroad is furnished by this advertisement.

Attention, Fenian Guards.—You are required to meet at your Armory this evening, at 7½ [illegible] for the annual election of officers.
By order of M. CAHALIN, Capt.
JOHN DONOVAN, Sec'y

MARTIN LUTHER once thought he saw the devil in his chamber, and threw an inkstand at his head. Had they had in those days AYER'S PILLS to expel all the devils that come from a disordered stomach, his [illegible] might not have been [illegible] use a [illegible] of history.

AN ORDINANCE to secure a supply of material for Public Buildings and the construction and repair of streets adjacent to the Public Grounds and for other purposes, and to lay a special tax therefor

SEC 1 The City of Portland does ordain as follows: That for the purpose of securing gravel stone, brick, clay, lumber and timber for the construction and repair of the city buildings of the city of Portland and of the streets adjacent to the public grounds and for the other purposes as hereinafter provided the corporation known as the "Oregon Central Railroad Company, of Portland Oregon, be and is hereby authorized to issue two hundred and fifty Bonds of the sum of one thousand dollars each, bearing interest at the rate of seven per cent per annum, commencing on the first day of January 1868 and payable on the first days of July and January thereafter semi annually, for the term of twenty years, said Bonds having thereto attached forty interest Coupons to each Bond, each Coupon representing the half yearly interest on its respective Bond, said Coupons to be signed by the Secretary of said Company and countersigned by the Treasurer of said city, and the said interest Coupons of said two hundred and fifty Bonds (numbered from one to two hundred and fifty inclusive) to be made payable by the city of Portland, at the city Treasury of said city at Portland, Oregon

SEC 2 That immediately after the signing of said coupons as provided in Section one and for the purpose of carrying out the provisions of the first paragraph of said Section, the Bonds and Coupons shall be delivered by the City Treasurer to William S Ladd, who shall take charge of said Bonds and Coupons and hold the same as Trustee for the use and benefit of the said Oregon Central Railroad Company, and to ensure the peformance of the agreement herein set forth by the said Company, it shall be the duty of said William S Ladd, Trustee to sell and negotiate the said Bonds with Coupons to the best advantage for said Company, and provide and purchase railroad iron rolling stock and other material requisite for the construction of a railroad, and have said iron, stock and material brought to the city of Portland, and hold and retain the said iron, stock and material in his own possession and in his charge without let or hindrance from the said Company or any of its officers, until the said Company shall prepare the ground ready to lay the rail, and the said iron, stock and material is to be delivered to said Company as the ground is prepared ready to lay the rail, and not otherwise, the said road to commence within the city of Portland, and to run into the Willamette valley not farther north than the Cornell Pass

SEC 3 That in order to carry out the provisions of the first paragraph of section one of this ordinance, there shall be levied and collected in the year 1868, in the same manner as the other city revenue is or may collected, a tax of four mills on the dollar of all the taxable property of said city, in addition to all other taxes, the same to be paid in the gold or silver coin of the United States, and the moneys to be derived from such tax shall be and is hereby appropriated and set aside to constitute a separate fund, to be known as the "Railroad Fund," out of which Fund the said Interest Coupons on said two hundred and fifty Bonds hereinbefore described shall be paid for the current year of 1868 as they may fall due and be presented for payment at said city Treasury, and if there shall not be in the Treasury in this said fund for this current year, sufficient money to pay the said Coupons for this year of 1868, or if there shall be a surplus after paying said Coupons for this year, the City Treasurer shall make such arrangements in this respect as is prescribed in Section Four of this ordinance

SEC 4 That in order to further carry out the provisions of the first paragraph of Section One of this ordinance, there shall be levied and collected in the year 1869, and annually thereafter for the period of Eighteen years, in the same manner as the other City Revenue is or may be collected, a tax of four mills on the dollar of all the taxable property of said city in addition to the other taxes, provided however that the City Council may at any time reduce the rate of said tax in proportion to the increase of said taxable property within this city, so that the Revenue annually collected by said tax shall not exceed the sum of seventeen thousand five hundred dollars per annum, the said tax to be paid in the gold and silver coin of the United States, and the moneys to be derived from such tax shall be and is hereby appropriated and set aside to constitute a separate Fund to be known as the "Railroad Fund," out of which Fund the said Coupons for interest on said two hundred and fifty Bonds hereinbefore described shall be paid as they may fall due and be presented for payment at said City Treasury from time to time for the period nineteen years, and on payment thereof by the City Treasurer said interest Coupons shall be taken up and cancelled, and if at any time there shall not be a sufficient sum of money in said Railroad Fund to pay said interest when due, then an amount sufficient to make up such deficiency shall be taken from the "General Fund" for that purpose, or the City Treasurer shall make such other contract and arrangements as may be necessary to make up such deficiency, and whenever on the first day of January of any year there shall remain a surplus in said "Railroad Fund" after the payment of the interest on said Bonds for such year, such surplus shall be paid into the "General Fund," Provided always, (and said Bonds and Coupons shall so express) that the City of Portland shall never be liable to pay the principal of said Bonds or any portion thereof

SEC 5 That the provisions of Sections one, two, three, and four of this ordinance, and the agreement of this city to pay the interest referred to in said Sections, is made upon the express condition and consideration that said "Oregon Central Railroad Company" does contract and agree by the filing of its agreement hereinafter referred to, at any and all times for the period of twenty years from the first day of January, 1869, to transport and convey over their railroad all public messengers required to travel at the expense of said city, free of charge, and also transport, carry and convey over their said railroad to or from any point on their line, as may be required, free of charge, or other compensation for transportation than is provided in this ordinance, all stone, gravel, earth, lumber and timber or other material which the city of Portland may require to have transported over the said Company's railroad for the construction or repair of the streets adjacent to the public grounds, the public buildings of said city, and any and all purposes for which the city of Portland may now or at any time hereafter lawfully can provide

SEC 6 That in order to avail themselves of the provisions of this ordinance said Railroad Company at a meeting of its Directors, shall accept the propositions contained in this ordinance, and by a resolution spread upon their journal, direct their President and Secretary to enter into an agreement in writing embodying therein the provisions of this ordinance, and file the said agreement with the Treasurer, signed by the President and Secretary of said Company and sealed with their corporate seal, binding said Company to faithfully perform the conditions and considerations on the part of said Company specified in this ordinance and the auditor of this city is hereby authorized upon the presentation to him of a duly certified copy of the said Company's resolution of acceptance of the proposition in this ordinance contained, to enter into and sign the said agreement to and with the said Railroad Company on behalf of this city, and attach thereto the seal of this city, which signing and sealing shall bind the city of Portland faithfully to pay the said interest Coupons as they may fall due and to the faithful performance of all other duties in this ordinance declared

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek. Debility is accompanied by many alarming symptoms and if no treatment is submitted to consumption insanity or epileptic fits ensue

DR HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage it is speedy and powerful in its effects upon the system. In all cases of diarrhea, dysentery and the prevailing fevers consequent upon exposure the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of much disease nor should any of those who are now engaged in that occupation fail to have recourse to the Bitters.—Sold by all druggists and dealers everywhere

DR. C. W. COOL,

DENTIST.

THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold. It makes the plate twice as strong and one third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from acting on the plate and from turning it black which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time particularly where tobacco is used for smoking. This new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received December 31 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

OFFICE—temporarily at the private parlor of the New Columbian Hotel dec31 3ptf

HELMBOLD'S FLUID EXTRACT BUCHU is pleasant in taste and odor free from all injurious properties, and immediate in its action

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain Killer but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone unrivalled by all the great catalogue of family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home and it has become known in these far off places by its merits

TAKE NO MORE UNPLEASANT AND UNSAFE REMEDIES for unpleasant and dangerous diseases. Use HELMBOLD'S EXTRACT BUCHU AND IMPROVED ROSE WASH

TEETH EXTRACTED

By Dr. Richardson's Apparatus, Lately Improved by Dr. Koehler, with Ether Spray.

WILLIAM KOEHLER,

DENTIST.

OFFICE AND RESIDENCE—Southwest corner Front and Yamhill Streets, opposite E J Northrup & Co's Hardware Store

Extracting Teeth by Dr Richardson's apparatus, with Ether Spray, is local in its application, the tooth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxyde (laughing gas)

N B—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS. 635 AND 637 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the Interior, a relatively higher price, excites the cupidity of some men factitious, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior product for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice

BEWARE OF COUNTERFEITS.

HAY AND HARD [illegible]
For sale by [illegible]

The Nile of Grace.

The sources of the Nile in secret lie,
Unknown to man, like God a mystery.
The human soul and Egypt's flooded mould,
By inundating grace their germs unfold.

The seed is moistened, soon from growing sprout
Upshoots the lofty stalk, its leaves bud out,
The husk, brown tasselled, cloaks the golden grain,
And labor plucks contentment once again.

The soul drinks grace, the vine entwines the tree
Of faith, with tendril love and charity;
Its blossoms sweet, shall, culled by Him, outpour
In Paradise their fragrance evermore.

THE STEAMSHIP LINE TO CHINA.—The *Bulletin*, of the 11th instant, publishes the following interesting resume of the China line of steamers for the year passed:

The steamship *China* will be dispatched on her [illegible] trip to Asia, on Monday, at 12 o'clock noon. This vessel will inaugurate the second year's steam service between this port and Hongkong. When this enterprise was first suggested, many doubted its feasibility, owing to the great distance between the two ports, and to the peculiar dangers of the China seas to which side-wheel vessels are necessarily exposed; others thought [illegible] as a pecuniary undertaking. [illegible] of these croakers still exist, but the number has been considerably reduced. Our port has enjoyed one year's steam communication with the Orient, and the results are generally satisfactory. [illegible] demonstrated that steamers can make the trip between this port and Yokohama—a distance of over 5,000 miles—without a coaling station, and with remarkable regularity. It has been further demonstrated that these trips can be performed with profit to the Company. The contract under which the service was commenced calls for monthly trips, or twelve round trips annually. It was hardly expected that the Company would be able to fulfil the agreement to the letter during the first year, and hence it is no matter of surprise that less than half the number of trips called for have been made. With three vessels already [illegible] for the service against one at the beginning of last year, and with another expected in the spring, the Company will doubtless be able to dispatch their steamers more frequently [illegible] the coming year than has been possible or [illegible] the one just closed.

[illegible] policy of using side-wheel steamers in this [illegible] is still questioned, and it may be that [illegible] will eventually have to be adopted. It [illegible] impression that such vessels could [illegible] more economy on this route than side-wheels, and it is quite as true that they [illegible] with more safety and more regularity. Notwithstanding these differences of opinion as to the character of the vessels to be employed, the China mail line may be regarded as [illegible] institution, the success of which is [illegible] beyond all doubt. The first steamer [illegible] from this port under the present arrangement [illegible] despatched January 1, 1867. [illegible] one which arrived from that country [illegible] just on the eve of the departing [illegible] completing five round trips during the [illegible] though seven steamers were despatched [illegible] the year, one of which was not [illegible] to return. As anticipated, the inauguration of steam has diminished the [illegible] of tonnage employed. This will be more [illegible] by reference to the figures. In 1866 our [illegible] tonnage from Asia was 27,863 tons, and [illegible] 28,610—tons—all sail. During the past year our inward tonnage from Asia [illegible] and our outward tonnage 32,320. Of this inward tonnage last year, 19,748 [illegible] was represented by the steamers; of the outward tonnage, 25,746 tons, [illegible] was similarly represented. The [illegible] lists of the steamers have shown a [illegible]. The first steamer that returned [illegible] only about 800 tons of freight, while [illegible] had over 2,000 tons.

[illegible] may find an interesting [illegible] number of Harper's Weekly, [illegible] them to have a stamp in every [illegible] the name, date, and locality [illegible], not only as a useful advertisement [illegible] and their business, but likewise as [illegible] future investigators and historians. [illegible] were common among the Romans and other ancient brickmakers, [illegible] valuable aid to historical [illegible] in verifying dates and [illegible] the annals of the past.

[illegible] it like the Continental barbers [illegible] they put a bowl under your [illegible] your face with water, and then rub [illegible]; then they begin to shave, [illegible] to swear. If you have a good [illegible], you see the infliction through; [illegible] of blasphemy, there is nothing [illegible] on the operation till you [illegible]

[illegible] thousand people in Swedes are [illegible] ration. The crops have partially [illegible] past five years, and this year's [illegible] cut off by a single night's frost. [illegible] the people in the district of [illegible] upon bark bread mixed [illegible] is not sufficient to sustain labor.

[illegible] a broker a few days since, "do [illegible] ever be worth $50,000?" "Ain't [illegible] you!" said the confiding spouse. [illegible] the other half, "but [illegible] at interest."

[illegible] head is not counterfeit," said a [illegible] toying with his sweetheart's finger. [illegible] best way to find it out is to *ring it*," [illegible] reply.

CHOW-KI-ANG!

THE CELEBRATED CHINESE BLOOD AND STOMACH INVIGORATOR.

A purely Vegetable remedy for strengthening the Stomach and Digestive Organs, regulating the Liver, Bowels and Secretions, purifying the Blood, eradicating Mercurial and Syphilitic Taints, Healing Eruptions, Pimples, Skin Diseases and Discharges, Relieving Rheumatism, Neuralgia, and all Muscular and Nervous Disorders, restoring Tone and Vigor to the System when debilitated by disease or imprudence.

This preparation is exclusively of Chinese origin and contains, in a concentrated state, the curative properties of fourteen distinct Medical Plants. It is entirely unlike any remedy for similar complaints ever before offered to the public, and will be found upon trial more thorough and radical in its effects.

Full directions with every bottle. Price, $1. Trade supplied at LANGLEY, CROWELL & CO'S,
Corner Battery and Clay streets, San Francisco,
dec16d3m4p Wholesale Agents.

July 1st, 1866.—dtf N. W. SPAULDING

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is so thoroughly taught and practiced, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide-spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed.

He wishes it to be understood that it will cure *all* diseases of the eye, whether of recent or long standing; but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons, living at and in the neighborhood of Harrisburg, Linn county:

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

E. B. MOORE, of the firm of Moore, Garst & Baber, of Harrisburg, had granulated lids for six years.

NATHANIEL BELL, of Clackamas county, had inflamed eyes—a bad case—for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County; G. R. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the above named persons have given lengthy testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

Prepared by SMITH & RILEY,
Harrisburg, Oregon.

For sale by SMITH & DAVIS, Portland, Oregon.

PROSPECTUS

OF

THE OLYMPIA TRANSCRIPT!

WE, THE UNDERSIGNED, HAVING PURCHASED the "UNION BOOK & JOB PRINTING OFFICE," of T. F. McElroy, propose to issue a Weekly Newspaper at Olympia, W. T., on or about the 1st of December next, to be called THE OLYMPIA TRANSCRIPT.

The paper will be devoted to the Agricultural, Mechanical, Commercial, Mineral, Moral and Political interests of the whole Territory.

In Politics we shall uphold and sustain the Union Principles of the Nation, at the same time reserving the right to be INDEPENDENT on all subjects, that we may be better able to discuss all matters in their true light, and give credit wherever it is due.

We trust our friends will circulate this prospectus generally, and assist us in getting a good list of Subscribers, Advertisements, or Job Work. We also invite correspondence from all sections of the Territory.

THE OLYMPIA TRANSCRIPT will be issued every Saturday, at $3 per annum, in advance.

Hoping to receive a share of public favor, we unfurl our banner to the breeze.

E. T. GUNN,
J. N. GALE.

CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable disease are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary.

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the efforts of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal [illegible] ions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fated breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with, a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

To Soldiers Claiming Bounties

UNDER THE

EQUALIZATION BOUNTY BILL!

THE UNDERSIGNED, HAVING RECENTLY RETURNED from Washington City, where he has made the proper arrangements for the collections of the Extra Bounty of $100 allowed to all soldiers enlisted after the 19th day of April, 1861, for a period of not less than three years, and $50 for soldiers enlisted for a period of not less than two years.

Persons entitled to the benefits of said Bounty will find it to their interest to attend to its collection at once. Having an Agent at Washington, and personal knowledge of the mode of making collections through the Departments, I can get returns promptly.

Call with your Discharge, and two witnesses for identification, at the Publication Office of the *Daily Oregonian*, No. 5 Washington St., Portland.

A. BUSHWILER, Claim Agent.

N. B.

Persons residing at a great distance can have their claims attended to by sending me their "Discharge," Postoffice address and place of enlistment.

A. BUSHWILER.

Notice in Bankruptcy.

DISTRICT OF OREGON—SS.—THIS IS TO GIVE notice that on the 3d day of January, 1868, a warrant of bankruptcy was issued out of the District Court of the United States for the District of Oregon, against the estate of Moses Abrams, in the county of Union, in said District, adjudged a bankrupt, on his own petition; that the payment of any debts and the delivery of any property belonging to such bankrupt, to him to his use, or for his use, and the transfer of any property by him, said debtor, are forbidden by law, and that a meeting of the creditors of said bankrupt, to prove their debts and to choose one or more assignees of his estate, will be held at a Court of Bankruptcy, to be holden at the United States Court Rooms, in Portland, aforesaid, before the Judge of the United States District Court for said District, on the 9th day of March, A. D 1868, at 10 o'clock A. M.

AL. ZEIBER,
January 6 1868 U. S. Marshal for said District.

REDINGTON & CO'S ESSENCE OF

JAMAICA GINGER

This valuable preparation, containing, in a highly concentrated form, all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for, while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary efforts that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

Sold by Druggists everywhere, and at wholesale by REDINGTON & CO., Agents for the Pacific Coast, San Francisco. je24d7m4p

STOP THAT COUGHING

SOME OF YOU CAN'T, AND WE PITY you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure, but

NEWELL'S Pulmonary Syrup

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

NEWELL'S Pulmonary Syrup

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S Pulmonary Syrup

has cured th[illegible] and it will cure YOU if you try it.

This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects, entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

NEWELL'S Pulmonary Syrup

Medical.

DR. J. C. YOUNG,

Medical and Surgical INSTITUTE.

- *CONSULTATION, IN ALL CASES, FREE.*
- *CURES GUARANTEED, OR NO PAY REQUIRED.*
- *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms; Weakness of the back and limbs; languishing feelings, loss of muscular power; nervousness; irritability; cold feet or hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of [illegible]; nightly emissions; colorless; slight discharges upon the least excitement: trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for some affection of the Heart, Lungs, Brain, or Digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the best form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression.

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid, and degenerate. This is applicable to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures, when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated, show a record unsurpassed by any hospital in the world, and the success that has invariably marked the course of treatment,

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that those poisonous drugs, by entering the blood, ruin the constitution and destroy life.

The Doctor effects a cure in recent cases, in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. The diet need not be changed. Cures always guaranteed, or no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community?" The Doctor, understanding how imperatively necessary those requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous or designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed—consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and faithful nurses.

TO CORRESPONDENTS.—Persons, either male or female, residing in the interior, are often deterred from consulting the Doctor because they cannot spare the time, nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint, will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor and will be treated with the utmost confidence, and either be returned or destroyed.

Consultation Free.

BENJ. F. JOSSELYN, M. D.,
(Box 735) No. 556 Washington Street,
San Francisco, Cal.

Persons who contemplate visiting the Institute, will please cut out the following, and use it as a guide:

DR. J. C. YOUNG,
Medical and Surgical Institute,
No. 556 Washington Street,
jan18d1y4p San Francisco, Cal.

THE peculiar [illegible] infection which we call SCROFULA lurks in the constitution of multitudes of [illegible]. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to [illegible] the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous [illegible]. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous [illegible].

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly [illegible] in their effect upon this class of [illegible] is indisputably proven by the [illegible] of publicly known and remarkable [illegible] has made of the following diseases: **King's Evil, or Glandular Swellings, [illegible] Eruptions, Pimples, Blotches, [illegible] Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, C[illegible] tubercular deposits in the [illegible] Swellings, Debility, D[illegible] Dyspepsia or Indigestion, [illegible] Syphilitic Infections, Mercurial [illegible] Female Weaknesses**, and, indeed, the [illegible] series of complaints that arise from [illegible] of the blood. Minute reports of [illegible] cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
